Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: Amended claims 1-27 have been found to be allowable because while the prior art of record teaches a contaminant barrier assembly located between a radiation source and an illumination system for attracting the contaminant particles traveling with a projection beam in a lithographic device but the prior art of record, either alone or in combination, neither discloses nor makes obvious the combination of a lithographic projection apparatus, and corresponding method or a radiation system, having a voltage source that is connected to a radiation source and an electrode so as to apply an electric field *between* the radiation source and the electrode for capturing contaminant particles from the radiation source, as recited in the instant claims. Applicant's arguments filed July 11, 2006 are deemed persuasive and incorporated herein by reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
